

## Nature's Neighbors: Helping Wildlife

When people drive too fast, animals can get hurt! You can help by making a crossing sign to remind people of our animal neighbors.

1. Draw some animals that live in your area in the sign below.
2. Cut out your sign.
3. Tape your sign to your window **OR** laminate your sign, attach it to a popsicle stick, and stick it in your yard.

**ANIMAL CROSSING**
